

course 4

ARCHITECTURE DESIGN

Year 1 Explore the Institute	Fall		Freshman Seminar in Architecture
	Spring	4.111	Introduction to Architecture and Environmental Design (HASS-A)
Year 2 Architecture Major Core Subjects	Fall	4.112	Architecture Design Fundamentals I
		4.401	Architecture Building Systems
		4.500	Introduction to Design Computing
	Spring	4.113	Architecture Design Fundamentals II
		4.302 4.440	Foundation in the Visual Arts & Design (CI-M) Building Structural Systems I (may fulfil REST requirement for GIR)
Year 3 Discipline Stream Subjects	Fall	4.114	Architecture Design Studio I (CI-M)
		4.603	Analysis of Contemporary Architecture (HASS-A)
		4.411*	Building Technology Laboratory (may fulfill LAB requirement for GIR)
	Spring	4.115	Architecture Design Studio II
		4.605	Introduction to the History and Theory of Architecture (HASS-A)
Year 4 Completion of Requirements	Fall	4.116	Architecture Design Studio III
		4.119*	Preparation for Undergraduate Design Thesis
	Spring	4.ThU*	Undergraduate Thesis

*Not required subjects for the BSA, but suggested to round out and enrich the curriculum.

4.111 is offered in the spring term and often taken as a freshman exploratory class. IAP class 4.11A may be substituted if a student is unable to take 4.111.

For students who enter the major late, it is possible to substitute 4.116 with two subjects in Building Technology; Art, Culture & Technology; Computation; History of Architecture and Art; or Urban Planning area (both subjects must be from the same area).

A maximum of three subjects may be used to fulfil both Departmental requirements and GIR requirements. Generally, those three subjects are 4.603 (HASS-A), 4.605 (HASS-A) and 4.440 (REST).
