4.111 is offered in the spring term and often taken as a freshman exploratory class. IAP class 4.11A may be substituted if a student is unable to take 4.111.

A maximum of three subjects may be used to fulfill both Departmental requirements and GIR requirements. Generally, those three subjects are 4.605 (HASS-A) and two other HASS electives.

Architecture majors following the History of Architecture & Art discipline stream may not elect a HASS concentration in The History of Architecture & Art.
