AWARDS

First Prize, People's Choice Vote, Illinois Urban Wood Products Showcase, Illinois Wood Utilization Team, *Bringing the Urban Wood Full Circle* Conference, "An electric acoustic ukulele and amplifier crafted by Paul Pettigrew, architect and associate professor of the Illinois Institute of Technology was the top winner of the Specialty Items category. The musical instrument combo incorporates spalted soft maple, hard maple, rosewood and chrome-plated ukulele tuners. Like a sea shell captures ocean sounds, Pettigrew said, 'I liked the idea of being able to 'hear the sounds' of Buchanan, Michigan, the source of the wood for the ukulele and amplifier.'"

American Institute of Architects, Education Honor Award, Presented to Paul Pettigrew Instructor, Illinois Institute of Technology, for Architecture 1 & 2, "A Significant Achievement In the Formulation, Implementation and Outcome of Architectural Instruction."

First-year design issues are addressed in a fresh, innovative way. The professors transform the campus into a large laboratory. Students understand scale better through full-scale mock ups rather than just drawing a human figure in their project. Relationships among plan, section, and axonometric are learned through presenting these drawings simultaneously' ...", 2006
