2018 – 2019: Course 4 – Bachelor of Science in Architecture (BSA)

- *4.021 is taken in the fall or spring terms. It is a prerequisite for 4.022 also taught fall and spring. 4.021 is not taken in the fall, 4.02A can be taken in January in order to facilitate the studio sequence without interruption.
- It is possible to substitute 4.025 with two subjects from the restricted elective options below. This option is primarily for students who enter the department late, but still wish to graduate on time.
- Keep in mind that only three subjects may be used to fulfill both Departmental requirements and GIR requirements. Generally, those three subjects are 4.021 (HASS-A); plus either 4.603, 4.605, 4.614 or 4.635 (HASS electives); and 4.440 (REST).
- *Notes in red: Not required subjects for the BSA but are suggested to round out the program and provide opportunity for developing skills.*
