

SMBT Requirements Form

Student's name: _____ Date form submitted: _____

Date enrolled in the Master of Science in Building Technology (SMBT) program: _____

Please provide an updated pdf copy of this form to Architecture Student Services via email (arch@mit.edu) by the last day of finals each semester so that this information may be added to your Departmental and Institute records as appropriate.

Note: As you progress through the degree program, adjustments may be made to the Major, Minor, or Applied Mathematics coursework as well as the working titles for both Thesis Proposal and Thesis.

Thesis Proposal

The thesis proposal is to be completed by the end of the first regular term of registration (i.e., a fall or spring semester). The thesis proposal is usually a product of 4.481, *Building Technology Seminar*. The student may not register for 4.ThG until the thesis proposal has been approved.

Title of proposal: _____

Date proposal approved: _____

Name

Signature

Advisor _____

Readers are optional; please list name(s), if applicable:

Major Field

At least two graduate-level subjects must be taken in a coherent field. Upon discussion with your advisor, please list each subject number and semester completed.

Field of Major: _____

Term completed

Course number and title

Credit Units

Level

Grade

Advisor approval of completed Major Field requirement: _____

Date advisor approved completion: _____

Minor Field

At least one subject must be taken in a field different from the major. Upon discussion with your advisor, please list the subject that constitutes the student's Minor.

Field of Minor: _____

Term completed	Course number and title	Credit Units	Level	Grade
----------------	-------------------------	--------------	-------	-------

_____	_____	_____	_____	_____
-------	-------	-------	-------	-------

Advisor approval of completed Minor Field requirement: _____

Date advisor approved completion: _____

Additional Subjects

SMBT required subjects include 4.481, *Building Technology Seminar*, and applied mathematics (typically 18.0851). The minimum credit requirement is 66 credit units; this includes major, minor, and required subjects, but does not include thesis (4.ThG).

Please take note of the following:

A course must be graduate level (G) to count towards an MIT graduate degree. If you elect to take a class P/D/F, it will not, therefore, count towards your degree (it also will not impact your GPA).

If taken, only 3 credits of 4.488, *Preparation for S.M.B.T. Thesis*, will count towards the 66-credit minimum.

Registering for coursework for visa purposes to support CPT/Academic Training or Research Assistantships will not count towards the 66-credit minimum (4.190, 4.299, etc.).

Term completed	Course number and title	Credit Units	Level	Grade
