

## Degree Date Extension Agreement: Master's Students

Extensions are considered for only one term. In order to be approved for a graduation degree date extension, at least one of the following situations must apply:

I am a single degree candidate, and I am applying to extend through the summer only (moving onto the September degree list). My committee and thesis advisor(s) support this decision, and we have determined a schedule for completing the thesis review(s) and book.

I am a dual degree candidate with an approved OGE Petition, and I am applying to extend a full term. My committee and thesis advisor(s) support this decision, and I have funding from outside of the Department of Architecture (minimum 50%\* TA/RAship from another DLC at MIT). I understand that the Department of Architecture will not be able to provide any additional tuition or stipend support, either through fellowship or student job support.

I am a dual degree candidate with an approved OGE Petition, and I am applying to extend a full term. My committee and thesis advisor(s) support this decision, and I have provided personal or family bank statements showing that I will be able to self-fund 100% of the costs of my extension. I understand that the Department of Architecture will not be able to provide any additional tuition or stipend support, either through fellowship or student job support. *\*Students in this category will be reviewed on a case-by-case basis and are not guaranteed to be approved for an extension.*
