MASTER/PIECE WORDSHOP

Antón García-Abril

Spring 2023

Visiting Masters: Alberto Campo Baeza, Diébédo Francis Kéré & Alejandro Aravena

Description: Master/Piece workshop will study 6 buildings that are considered seminal in contemporary architecture, built by architects that remain active in practice. We will discuss why those works are key and the chain of reactions and trends that detonate in architecture culture, their traces and impact in peers and in other projects. We will focus deep in the conceptual to constructive scales and the masters will join the class to culminate the analysis and conversation.
